

LEGACIES

An unofficial campaign supplement for
Games Workshop's *Warhammer 40,000*.

Rocketship Games

INTRODUCTION

Legacies is an unofficial, team-oriented skirmish campaign for Games Workshop's *Warhammer 40,000*. Its core is a set of eight thematic missions designed for *Recon Squad*, an unofficial skirmish variant of *40k* similar to Games Workshop's *Kill Team* rules. In a *Recon Squad* game, players field only a squad or two on a small board with dense terrain, and all of their models act independently. This makes for a very different *40k* experience, focused on the heroics and sacrifices of everyday grunts and squad leaders, while still using the standard gameplay rules you already know and the models you love.

Those skirmish missions are woven into a campaign by a set of eight *Legacies*, specific missions the recon squads are striving to complete for their alliance. The climax of the campaign is the Cataclysm, in which all the recon squads and some reinforcements fight alongside their alliance teammates in a final joint battle while also trying to fulfill their legacy.

Legacies may be run either as a single full-day event or over several evenings. Though the missions and legacies are thematic and storyful, *Legacies* does not have its own setting, so that it can be easily adapted to one of your own making. Other events are also easily connected before or after this campaign to form a larger narrative. Notes are also included here on scoring *Legacies* in a narrative tournament or league, with individual prizes.

OVERVIEW

Legacies is played as four rounds of *Recon Squad* skirmishes, each capturing a small but pivotal incident in a larger battle, followed by a closing Cataclysm team battle. Rules for *Recon Squad* are here:

<http://rocketshipgames.com/40k/recon-squad/>

Each recon squad is working toward a particular legacy inside the grand history of the greater conflict:

- **Bodyguards:** Fierce defenders of critical battlefield leaders and personnel;
- **Excavators:** Daring explorers, technical experts, and artifact raiders *par excellence*;
- **Headhunters:** Precision instruments of assassination and targeted violence;

Recon Squad

An unofficial supplement for Games Workshop's Warhammer 40,000

- **Killers:** Shattered fighters disconnected from anything but maniacal bloodshed;
- **Penetrators:** Sharpened blades able to break through any armor or defense;
- **Scouts:** Reckless adventurers dancing in the jaws of death for more information;
- **Sentinels:** Implacable defenders and masters of impromptu fortification building;
- **Warriors:** Hardened veterans that have been through everything and haven't seen the end.

Their path toward those legacies is defined by the missions they tackle, as attackers or defenders:

Ambush
Assassination
Battlefield
Breakthrough

Encirclement
Excavation
Installation
Skirmish

Successes and failures at those challenges will define both the recon squad's place in history, and their alliance's ability to win the Cataclysm.

ORGANIZATION

This section describes how to conduct a *Legacies* campaign, and is mostly intended for the organizer.

SCHEDULE

Recon Squad games can be easily run in about 60 minutes in an event setting with boards pre-arranged and armies unpacked before the clock starts for each round. Generally matches take at most 90 minutes even at a very casual pace with no preparation beforehand. The Cataclysm game can be comfortably played in 4 hours including setup. It's therefore feasible to run *Legacies* over either several evenings, or a single full day. A sample schedule for a single-day is:

11:00	Doors open
11:50	Registration Closes
12:00	Campaign Briefing & Alliance Pairings
12:15	Round 1
1:25	Alliance Pairings
1:35	Round 2
2:40	Alliance Pairings
2:50	Round 3
3:50	Alliance Pairings
4:00	Round 4
5:00	Dinner Break
5:30	The Cataclysm
9:30	Campaign Outcome & Prizes

ALLIANCES & STORY

At the start of the campaign, the players are organized into two alliances with an equal number of players. In some groups this might be faction specific, e.g., Chaos Daemons versus Eldar. Generally though an alliance will be comprised of several factions and can be given a less specific title such as the Forces of Order, Legions of Discord, or the Spoiler Horde. How players are assigned alliances is up to the organizer. In a large event with mostly strangers and tournament leanings it might be simply random. In more narrative-oriented and casual settings though, some attempt should be made to take into account thematic cohesiveness as well as balanced skill levels.

The concept behind the campaign is that each recon squad is a team of veterans or other distinguished warriors tasked with several special operations as part of a larger battle or war. In the course of those missions their paths eventually all cross, resulting in the larger final battle. Any specific background story is up to the organizer and players, enabling a range of narratives with more or less detail.

SETUP

In advance of the campaign, players should be pointed to the Recon Squad rules and the Missions section of this packet so they can design their Recon Squad and Cataclysm army lists. The campaign is themed around players fielding a single Recon Squad list throughout, but the organizer should feel free to be flexible about that requirement if they wish. In a campaign run over multiple days there is no need to require Cataclysm lists be finalized until the last event.

Preparing for the campaign is very simple. For each of the two alliances, print and cut apart enough sets of the 8 legacy cards in the Missions section to have at least one card per player. Also print and cut apart enough sets of the 8 mission sheets to have one for each match. For a campaign with up to 16 players this means making two sets of legacy cards and one set of mission sheets.

With anything but a very small number of players, it's probably easier to have players record results separately from the mission sheets, especially as the latter might be used multiple times. In that case, print and cut apart enough copies of the scorecards at the

end of this section to have one for each match. Finally, if using the scoring mechanism described here, also print and cut apart enough copies of the ballots and tickets from the end of this section to have one painting ballot per player and as many sportsmanship tickets as you think might be necessary.

LEGACIES

After being assigned an alliance, each player chooses a legacy. No legacy may be selected twice within an alliance until all legacies have been chosen at least once, and so on if there are even more players. Otherwise the alliance members may discuss among themselves how to divy up the legacies. If there is any contention, either ask the players in random order to choose, or randomly assign legacies.

Each legacy lists three Recon Squad Missions and gives a Cataclysm Objective and Legacy Bonus. To achieve their legacy, players must accomplish the Cataclysm Objective in the final team battle. If they win at least two of the three Recon Squad Missions in the given role of attacker, defender, or either, then they receive their Legacy Bonus in the Cataclysm.

Players' chosen legacies, match results, and whether or not they are succeeding at their missions are all public information throughout the campaign.

ROUND PAIRINGS

Recon Squad match pairings are made strategically by the alliances to help their players achieve their legacy missions and further their collective strategic goals. Before each round, the alliances alternate nominating one of their remaining unpaired players along with a mission and role (attacker or defender). The opposing alliance then responds with a player for the match, who takes the other mission role and chooses an unclaimed game board to play on. This player must be in the same or best similar win/draw/loss bracket as the nominated player, unless the number of players is not great enough to make this restriction without repeating match pairings. In that case the later rounds might require specific pairings to not have repeats.

For the first round, the initial alliance to put a player forward is determined either randomly or based on the background story or the outcomes of connected preceding events. In subsequent rounds the alliances alternate making the initial nomination.

Players should use the checkboxes on their legacy cards to record victories toward the Recon

Squad Mission requirements, in addition to the organizer keeping track. It does not matter if the player was nominated or the responding opponent, and they do not have to complete the missions in any order. In order to get their Legacy Bonus in the Cataclysm they simply have to win each mission in the required role at some point in the campaign. Similarly, a player can attempt a mission and role pair multiple times. However, no advantage is gained by winning the same mission and role pair multiple times.

CATACLYSM

Following the four rounds of Recon Squad games, the campaign concludes by pitching the two teams against each other directly in the Cataclysm. Each player essentially adds 300 points to their Recon Squad, as described in detail in the Missions section. The board for the Cataclysm game should be 4' wide as usual, and roughly as many feet long as there are players in the campaign. So an 8-player campaign would conclude on an 8'x4' table. One idea to consider is simply moving together boards used in the Recon Squad rounds, so that the battle thematically continues directly over the same terrain.

SCORING AND PRIZES

Legacies is oriented to casual play. However, it can easily be used for a narrative tournament format. Any prizes should be small and fairly well distributed though to limit the stakes, given that top players may not face each other if they're in the same alliance, players don't all contest the same scenarios, some missions are asymmetric, and so on. There should also perhaps be two sets of prizes for any gameplay awards, one for each alliance. The following is one potential scoring and prize scheme, but the organizer should of course feel free to devise their own.

Prizes. The following prizes are offered:

- Overall alliance winners based on total scores;
- Painting and hobby based on player voting;
- Best general, based on battle points earned.

Overall Scores. A total of 100 points are available for each player throughout the campaign:

- 60 points for game results;
- 20 points for painting and hobby;
- 20 points for sportsmanship.

Game Results. Each of the four Recon Squad missions are worth up to 12 points:

- Major victories award 10 points to the winner and 0 to the not-winner;
- Minor victories award 7 points to the winner and 3 to the not-winner;
- Draws award 5 points to both players.
- 2 bonus points are available in each mission.

Players may also earn up to 12 points in the Cataclysm toward their individual game results:

- 7 points for winning their Cataclysm Objective;
- 3 points if they earned their Legacy Bonus;
- 2 points if their alliance won the Cataclysm.

Painting and Hobby Scores. Painting and hobby work is scored objectively by the organizer applying this rubric to the entire army:

- All models assembled and primed: +5 pts
- All models three-color minimum: +5 pts
- All models based (paint/flock): +4 pts
- Advanced painting techniques present on any model (washes, drybrushing, etc.): +3 pts
- Advanced basing techniques present on any model (3D details, varied flock, etc.): +3 pts

Note that this goes solely toward overall scores. The painting prize is based purely on player voting.

Sportsmanship. By default, a player earns 5 points for sportsmanship in each Recon Squad round. However, if their opponent submits a sportsmanship ticket then they are docked points for any poor behavior:

- Openly hostile or rude: -3 pts
- Unnecessarily competitive in army, list, or attitude: -2 pts
- Sloppy with measuring, moving, line of sight, or dice: -2 pts
- Unreasonably late, overly slow playing, or too inattentive: -1 pt
- Significantly unfamiliar with rules or made too many mistakes: -1 pt
- Not prepared with clear, typed army lists: -1 pt

Hopefully few or none of these tickets need to be submitted; it's perfectly acceptable for players to not find any reason to penalize their opponents. It should be feasible then to give each player one at the start of the campaign and only give out more as needed.

Painting Award. Separate from the overall scores, a painting and craftsmanship prize is awarded based on player voting. Each player must submit a ballot ranking what they consider the best army among all those in the campaign. Players may not vote for themselves. For each ballot, the top army receives 3 votes, the second 2 votes, and the third 1 vote. The army with the most votes wins the prize.

Recon Squad mission and role requirements for the legacies.

All of the missions are played on a 4'x4' table.

The variable game length rule is used in all missions unless noted otherwise.

Roll a D6 before any deployment. Night Fighting is in effect for Turn 1 on a 4+; on a 1 or 2 it takes effect on Turn 5 and thereafter.

The winner of a D6 roll off decides to deploy first or second. After both players deploy, the player that deployed first chooses to play first or second. The player to go second may attempt to Seize the Initiative.

A major victory is worth 10 points to the winner and 0 to the loser. Victory is 7 and 3 Draw is 5 and 5 Plus the two bonus points.

Better victories trump others, e.g., meeting the conditions for a major victory trumps the conditions for a minor victory.

Missions to be specified in more detail...

AMBUSH

The Defender is given an AV10/10/10 HP2 truck with 5 embarked NPCs with sub-Guardsman stats. The truck takes dangerous terrain tests on a 2+ and always takes a dangerous terrain test if it moves flat out. The truck starts at one end of the board and it or the NPCs must make it to the far edge. The Attacker Outflanks.

ASSASSINATION

An NPC with Guardsman-ish stats is placed in control of the Defender, who loses if it dies.

BATTLEFIELD

Kill points with Dawn of War setup.

BREAKTHROUGH

Attacker has to break into the defender's deployment zone.

ENCIRCLEMENT

Kill points with the defender starting at the center of the table and the attacker all around.

EXCAVATION

Similar to the scouring, several objectives of randomized value are randomly placed inside a square at table center. The defender starts deployed in that square, the attacker is around the edges.

INSTALLATION

A single objective is put forward slightly from the defenders leading edge, inside an AV11 HP3 Small building. The defender wins if they hold that objective. Otherwise the attacker wins.

SKIRMISH

The basic mission from the Recon Squad packet: Vanguard and three objectives.

Name: _____

MISSION: AMBUSH

A supply convoy is moving through the area.

Attacker: You *need* those supplies.

Defender: The supplies must get through.

THE BATTLEFIELD

The winner of a D6 roll off chooses a table edge and the other player takes the opposite. The defender's deployment zone is the 12" strip along their table edge. All of the attacker's units gain Outflank and must be placed in reserve, except Infiltrators which may deploy as usual. At the start of their deployment, the defender gains a convoy vehicle for their army.

MISSION RULES

Half of the attacker's army by the number of models, rounding up, arrives from reserve on Turn 1. The remainder arrive from reserve as usual.

The convoy vehicle has armor 11/11/10, 3 hull points, and may not move Flat Out. It ignores all results on the Vehicle Damage table, only losing the hull

point when damage is incurred. On a failed dangerous terrain test it loses a hull point and cannot move further that phase but is not immobilized. The vehicle, or its wreck, also acts as an objective marker. While the vehicle is not destroyed, the defender controls it by default if there are no attacker models within 3".

Attacker Defender		SCORING
		Condition
<input type="checkbox"/>	<input type="checkbox"/>	Major Victory: Attacker if the vehicle is destroyed and they control its wreck. Defender if the vehicle or its wreck is within 12" of the attacker table edge and they control it.
<input type="checkbox"/>	<input type="checkbox"/>	Minor Victory: Attacker if the vehicle is not destroyed but they control it. Defender if they control the vehicle or its wreck, but it is not within 12" of the attacker table edge.
<input type="checkbox"/>	<input type="checkbox"/>	Draw: The vehicle or its wreck is contested.
<input type="checkbox"/>	<input type="checkbox"/>	Bonus Point: Opponent's leader is a casualty.
<input type="checkbox"/>	<input type="checkbox"/>	Bonus Point: Player's leader survives.

MISSION: ASSASSINATION

A VIP is touring the frontlines, their mission unknown.

Attacker: The VIP must be slain.

Defender: The VIP must be defended at all cost.

THE BATTLEFIELD

Deployment zones are 12" from opposing table edges. The winner of a D6 roll off chooses a side and the other player takes the opposite. Before deploying, the defender's army gains a VIP model.

Place 3 objective markers at 12" intervals along the centerline 24" from both player table edges.

MISSION RULES

The VIP is an infantry character with WS2 BS2 S3 T3 W3 I2 A1 LD8, a 2+ armour save and 4+ invulnerable, Eternal Warrior, Fearless, and a laspistol.

At game end, each objective marker is worth 1 victory point. The defender gets 2 victory points for each wound remaining on the VIP. The attacker gets 2 victory points for each wound lost by it.

Attacker Defender		SCORING
		Condition
<input type="checkbox"/>	<input type="checkbox"/>	Major Victory: Player has at least twice as many victory points as their opponent.
<input type="checkbox"/>	<input type="checkbox"/>	Minor Victory: Player has more victory points.

<input type="checkbox"/>	<input type="checkbox"/>	Bonus Point: Opponent's leader is a casualty.
<input type="checkbox"/>	<input type="checkbox"/>	Bonus Point: Player has a model in opponent's deployment zone.

MISSION: BATTLEFIELD

The war grinds on interminably, all notion of battle lines lost in the confusion and exhaustion.

Attacker and **Defender** roles are identical in this mission and have no effect in-game.

THE BATTLEFIELD

The winner of a D6 roll off chooses a table corner. Their deployment zone is the quarter circles of all points within 12" of that corner as well as the *diagonally* opposite corner. The other player's deployment zone is the 12" quarter circles from the other corners.

Place a single objective marker at table center.

MISSION RULES

At game end, victory points are earned as follows:

- At least 3 of your opponent's models have been removed as casualties: +2

- At least 50% of your opponent's army by points value or number of models are casualties: +3
- The total number of wounds lost as a casualty by your opponent is more than you: +1
- All of your opponent's models have been removed as casualties: +1

Attacker Defender		SCORING
		Condition

<input type="checkbox"/>	<input type="checkbox"/>	Bonus Point: Opponent's leader is a casualty.
